

Real Safety in Real Time

Gaggle Safety Management
Protect students and ensure their well-being with the most proactive tool in digital safety.

G Suite

SAFETY IN THREE PHASES

1 | Content Analysis

Machine learning technology blocks potentially harmful content and images in students' school-issued accounts.

2 | Expert Review

An in-house team of trained safety professionals work 24/7/365 to evaluate content.

3 | Rapid Response

In severe situations, district-appointed contacts and law enforcement are notified immediately even after standard business hours.

Safety Management Professional Development

Gaggle PD is designed to educate designated emergency contacts to respond confidently and appropriately to student safety incidents.

SpeakUp for Safety

Gaggle offers a safe and confidential digital tip line that encourages students to report concerns about bullying, suicide or self-harm, drugs and other threats.

Archiving, Backup, and Email Migration

If a server goes down, users can still access their email through a web-based email system via POP3, SMTP, and IMAP clients. Data migration is simple with US-based, enterprise-class storage.

Stand-Out Districts Use Gaggle as Their Top Student Safety Solution

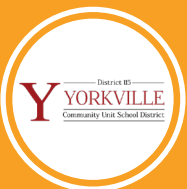

DR. RICHARD O'MALLEY
FLORENCE, SC
SUPERINTENDENT

"Gaggle provides 24-hours-a-day, 365-days-a-year safety for our students. I know for sure there are many lives of our students we saved. **Gaggle really does save lives.**"

DR. AUDREY HOVANNESIAN
DIRECTOR, TECHED DEPARTMENT
OF INFORMATION TECHNOLOGY

"You can't put a price on a student life or on educating them on how to be good digital citizens."

RYAN ADKINS
YORKVILLE CUSD
DIRECTOR OF TECHNOLOGY

"If you were to cut my budget tomorrow and tell me that I can only have one piece of software in place, **10 out of 10 times I'd say it would have to be Gaggle.**"
